

Chief Health Professions Officer's Conference

National Support for Local Leadership

21 October 2008

London Hilton Metropole Hotel,

Edgware Road W2 1JU

Aimed at AHP leaders, aspiring leaders and senior managers, the conference will identify national support available for you to continue leading the transformation of patient care locally.

This year's conference will offer a very different experience from the usual plenary and masterclass mix. Although we will start with keynote speeches from the Secretary of State, Rt Hon Alan Johnson MP (subject to Parliamentary business), Mark Britnell, Director General of Commissioning and System Management and myself – the remainder of the conference will feel very distinct from previous years.

The programme includes an action learning set session to support leadership development and the opportunity to meet representatives from several high profile national organisations to find out what they have to offer nationally to support leadership locally. Career surgery sessions are offered from a selection of high achieving AHPs.

The conference provide opportunities to meet local SHA AHP leaders and to find out what is happening locally.

This year's conference aims to:

- Develop your understanding of the DH's overarching policy and its relevance to AHP services
- Support you in maximising your potential leadership capacity and capability now and in the future
- Create an environment for you to network and extend your own network lists
- Inspire and empower you to deliver a first class service that represents value for money

The deadline for registrations is Tuesday 7th October 2008. This is a fee paying event charged at £125.00 + VAT per delegate.
