Subject: Measuring Clinical Quality Workshop - 11th July 2008 - an event for the allied Health Professionals

Dear Colleague

Firstly may I apologise for sending this to you but there is no central list of 'Heads of Therapies' or equivalent in NHS Organisations and I thought you would be able to help in circulating details of this workshop.

The Commission is organising a workshop on measuring clinical quality that will focus on the work of the Allied Health Professionals.

The purpose of the workshop is to explore with Allied Health Professionals how the Commission can better measure clinical quality and effectiveness.

We have secured Karen Middleton, Chief Health Professions Officer at the Department of Health, as our key-note speaker.

The workshop will be held in central London from 10.00 - 15.00 on Friday 11th July 2008.

There is no charge for attending the workshop.

Further information can be found in the enclosed document.

I would be grateful if you could forward this email onto your Head of Therapies (or equivalent) or anyone else in your organisation you think may be interested.

Thank you for your assistance.

Yours sincerely

Ann Close  
National Clinical Advisor  
Healthcare Commission
