### Conference Advertising

Our annual Conference offers several opportunities for advertising and sponsorship for prosthetic and orthotic companies. Two standard options are described below but we would be very happy to discuss any alternative with you.

Advertising space in the Delegate Invitation and in the Conference Programme. Both of these high quality brochures are produced in full colour, glossy format and carry A4 and A5 sized advertisements. The spaces on the cover are always popular.

Delegate bag literature inserts. Companies may distribute their product literature in our delegate bags.

For further information, please contact the BAPO Secretariat via the Enquiry Form, or at:
