

Links Directory

Tuesday, 04 December 2007

Last Updated Wednesday, 13 January 2010

BAPO seeks to support its members in many ways. One of the main services we offer is providing relevant, up-to-date and useful information. This list is provided to assist in locating relevant information, predominantly regarding the areas of prosthetics and orthotics.

The listings are not exhaustive and inclusion does not imply an endorsement or recommendation by the British Association of Prosthetists and Orthotists. The categories are: Information Sources, Educational Links, Career Links, Commercial Links, General Interest Links.

Any organisation or establishment wishing their site address to be considered for inclusion should forward the relevant information to:

Inclusion is entirely at the discretion of BAPO.

If you feel that others would benefit from knowing of a resource, business or organisation that you are aware of then you too can send us details of the site for our consideration.

We hope that you find what you are looking for!
